

Operating Engineers Local 57 Apprenticeship & Skills Improvement

Winter/Spring 2023

All recertifications and upgrade Classes are held at the Training Site and are available to you free of charge. Do not find yourself underqualified for your next dispatch. If you are interested in CDL, NCCCO, OSHA 10 or 30, these classes will be scheduled when there is enough interest or need. Please call Training Director Russell Amato, or Site Coordinator, Steve Rogers at 401-934-0360 Monday through Friday 7 am to 3:30 pm if interested. Massachusetts Continuing Education Certification classes are suspended. Classes will resume if the State of Massachusetts recertifies Local 57 Apprenticeship and Skills Improvement Program for MA Continuing Education instruction. Until then, the course is available online through multiple vendors. We will update members as soon as more information becomes available.
